

La differenza la fate voi

16/05/2016

Gli ospiti del Villaggio Obbitu vivono ogni giorno dei momenti felici.

La vita gioiosa e spensierata dovrebbe essere cosa normale per tutti i bambini ed i minori del mondo.

Tuttavia a Sololo la "norma" è ben diversa.

La differenza la fate voi.

Intuibile di quale differenza si sta parlando.

Questa, per es., è l'ultima situazione familiare "normale" che abbiamo incontrato.

Queste sono due facce della stessa medaglia.

Con te e con altri amici come te, stiamo tentando di cancellarne una.

Ciao, benvenuti

Ci scusiamo, ma al momento uno dei 10 figli è in cerca di cibo
abitiamo qui ... sì, anche quando piove ...

[\(vai alla traduzione italiana del rapporto\)](#)

The following are the information collected.

- The mother had 12 children out of which 2 children(twins)are not alive through moternal therefore in the house there live 11 members: (4 boys, 6 girls and the mother)
- The mother gave birth 3 times twins although 2 did not survived.
- 3 children are in school 2 girls in class 5 and a boy in nursery at Ramole primary which is almost 6 km from their home
- 4 children are below 5 yrs and they are twins hence they need extra care, quality food, better

health care etc.

- The family are not getting any support from the government, NGOs and relative
- They take meals only ones per day which is the assistance they receive from villagers and some of the time they stay without as what they received is not enough for the whole family but only give it to small children.
- They originally came from Ethiopia where they moved from after the death of the husband 10 yrs ago.
- These family had no animals and other resources , this made them to move to town where they can sell water and firewood to earn a living.
- When they reached Sololo Ramata, the plot to live in become the major problem. but the village elder temporarily gave them a piece of land where they build small shelter as they wait for their own.
- Some month after arrival they started breaking stones for sell but later she gave birth to many children including 4 times twins . this made her more vulnerable and become

extremely poor as the mother is a care taker of small children no longer have time to break stones.

- The shelter of the family is in very bad shape, exposing the family especially the small children to harsh weather Such as rain, cold and sun
- In the house all the 11 members of this family are sleeping on the floor where they use polythene sheet as their bedding. No blankets, no mattress and no clothing for the children. The clothing of the children are some times donated by the villagers . the cloths children have grown from.

conclusion ...
