## Corripendenza inerente i disastri alla casa di Abdi

---

On 28/04/2019 12:05

Ciao. ... good morning I want to bring to your attention that 3 weeks ago before the on set of this rain my only house was destroyed by strong wind and badly damaged. At the moment i did not managed to built it,Because the cost of reconstructing it again is high,since the first one took most of my livestock,I have just returning the damaged iron sheets and broken trusses.

But now since the rain has started the house is leaking from every part exposing my children to harsh weather.I have now moved my children and part of property to my mothers house taking the matter as emergency.

Dr.pino I know you understand my financial capacity which I have informed u some times. The quotation by Fundi was one that shocked me most in relation to my small pocket which is also depended upon by all my 5 siblings and my older parents.its 245,250ksh which as the situation stands it's beyond my ability but also my need for shelter is so urgent that can't wait my little saving.

Dr.pino and mum I understand the situation in Italy and also status of donors.but I have remember you as my last resort.

Please sorry for receiving this news from me.

Dearest friend Abdi,

1 - I am so sorry for these disasters of yours

2- the strength and greatness of a man can be seen when this person knows how to get up after the fall

3- friends recognize themselves in their hour of need

4- as a friend, I will do everything I can do, respecting truth and justice

Here's what I suggest you do, if you agree:

1- Get all the necessary estimates. In defining what you must do, how you work and the quality of the same, you must behave exactly as if you were to do it for a stranger. As if you had to decide to do it for any of the Project-Sololo families. I mean that you must put us an objective impartiality in defining what is right to do, not too much but not even doing less than necessary. Honesty and justice, as everyone knows they must present themselves, honest and just, in front of God. God is Love; God loves you and certainly does not abandon you. Do not abandon Him in refusing His Love or betraying Him with dishonesty or injustice in your actions.

2- document with photos and descriptions, which explain well all your misfortunes: home conditions, animals, shop ... your dependents: brothers, parents, relatives, friends ... and any participation or non-participation in the possibility of helping you with the relative because of their impossibility. The whole truth.

3- With this news we write a sort of "project to help you" to present to our donors. They know you well and know of your honest and important commitment to work for the community of Sololo. They know how the community appreciates this.

4- We await their response and see how they can help us.

5- If we do not find the support we hoped for, it seems right that the Project-Sololo intervenes favoring you with a loan, to be repaid in the long run according to your future possibilities. For justice towards the beneficiaries, the project cannot make you such an important donation; will do something; but an interest-free loan (according to the Muslim law) can let you and you can also agree on long repayment times compatible with your possibilities.

Therefore, you already have our approval to begin the work necessary to get your children back home as soon as possible and to bring your family together. For these economic aspects, write directly to Margot for the authorizations to Guyo to finance you.

Keep us informed. Smile that Life is beautiful and after the storm the sun always comes.

A fraternal embrace

Pino

Hello Dr.Pino. thanks for your mail and for your Quick response. secondly i really appreciate your words of encouragement and also fatherly advice, thanks sooo much for that. you have really put a smile on my face. when that disaster happened i was in bed because of the other problem of my head which i sometimes shown you. still have that problem and was extremely painful in that material day.they hurriedly put back the iron sheets and broken trusses for us to get where to sleep.though wind took advantage, the trusses was a gradually finished by termites. that strong wind destroyed 4 houses in sololo Ramata including Hawecha primary school,2 houses in Karbururi near Golole,then Golole primary school.

Now I have read your comment and understood it which i will give you an overview of my family background,the cost estimate without exaggeration and even reusing some of the materials with the aim of reducing cost.

thanks Dr. Pino for your concern and care, i pray to Our Lord to provide you with Money printer for u to continue assisting the disadvantaged.

Ciao again

greetings to all. have a good day.

Abdi

Hi Abdi, In your building project, are you sure you haven't made any confusion with the units of measurement? The impression is that the Bill of quantity is excessive in the estimates. Do you plan to redo the roof and walls? Only redo the roof? Building a new home? Can you verify and give us confirmation of your project and its completion times? Do all the money serve immediately or split over time? We want to help you as soon as possible. Thank you and good day.

Ciao.Thanks Daktari for your clarification.this was wrote by the Fundi himself its a 4 room house. as I have shown you in the picture the wall also has permanent crack on several places. if am able i want to renovate the roofing and plastering of walls both inside and out side and floor ones and for all to avoid repeat of the same job anytime near. in fact want to provide reinforcement of the walls with a few square tube. May be the only difference was 12500shs of iron sheet which I preferred red colour. The house has an external measurement of 40m and an internal petition of 4 rooms and a corridor inside. I estimate the work will take like a month. Some cost like that of paint and painting,water I did not added

Thanks

Sorry for interuption because I know its not in any of us planned activities of the year.

I appreciate whatever amount you assist me with.

Good day to you all.

Abdi

I'm so sorry for you and your family. However in life one can always repair everything except the neck bone. Courage. Are you sure the builder is an expert on his trade; he should have noticed the fragility of the roof anchoring. Keep us informed.

Ciao.good evening. Im looking for more words to sound more than thank you so much.

I appreciate so much for your contribution you have made.thanks for sympathizing with me during this time of need.May our Lord have mercy on you and your family.

Today I have received a check of 270,000/=

May God bless you and family at large for the support.

Thanks. Soooooo much. I shall up date you every steps with photos Have a blessed night.

Ciao to all. Mum Margot, andrea and his family, Christian and family, all Bollini families, all our welwishers Sololo project-Don marco, Ilaria, francesca Sozi, Bea and her mum, Marco collombo, Mauro, masimo Silvia Bollini, cecilia and others to mention but a few let us remain alive.receive my greetings from Sololo.

Thanks, Abdi Wario

Hi Abdi, I turned to your friends Your thanks.

For the moment consider it a loan and then we will see how to agree on long-term and interest-free repayment and without having to affect your family's life too much.

For now, think about doing things well and not wasting this opportunity, which in any case is the result of sacrifices for those who help you. A fraternal embrace and thank God our father. pino

Ciao all,Good afternoon. **finally i have completed my shelter construction today after long period** of struggling to bring up the lost glory. i did not expected that i might reach this far since i was completely in dark at that time of disaster.Thanks to Our Almighty Lord for this far i have reached.Thanks to you all for saving me from this difficult situation. after thanking you very much ,i also recognize some of my friends from within Sololo who stood with me during this trying moment and Voluntarily contributed K sh.143,000 (some in cash and some in kind) toward bringing my shelter back under the slogan "STAND WITH ABDI". i also recognize my Father who sold me 3 cows at 100,000/= and another friend of mine who credited me 80,000/= and he told me to pay slowly at a later date. i will do painting later but now will move into the house Tommorow. Generally i can't find a word to say Thank you all, but pray to our Almighty to Construct a beautiful House in Heaven for you all. at least i'm Happy and now back to light. Greeting to all the family members,the Donors of Sololo project and other Volunteers whom we have at one time interacted in line of our duties. Thanks so much,have a blessed evening Abdi
