

Non è sempre facile il rientro in famiglia 2019

06/12/2019

Returning to the family is not always easy.

"D. D.completed her stay at Obbitu children home and was exited to go to her mother place in Madoadi. they quarreled and D. ran away to sololo town and briefly was at B. A.; Grandmother house, buke was a colleague , her mother E. came to Obbitu searching of her , we joined in search party and shortly found D. with B. A. at mayatta Oba village. we took her in Obbitu children home. we advised the mother to leave D.with us but she could not agree but at last and with long persuasions we manged to convince the mother to leave D. with us, further more she has been with us for 9 years.

on three occassions we tried to solve the misunderstanding but the mother flares up and then D. refuse to go back.

lastly after daily counseling of the mother and D. they both cooled down and agreed to forgive each other and forget the past and embrace the future. i took D. back to the mother this morning and got the opportunity to reconcile them and other sibilings . we even had photos together and their little maize shamba was very impressive and brought us all together.

the maize, peas and green gram stole the show we were all happy with the family and congratulated them for fighting hunger through planting of maize and the project appreciated their effort very much. we took pictures and we share with you".
