Covid-19 holiday

It was one chilly morning when the sun was rising from the horizon east. As usual I woke up at 5.30 Am. I wore my uniform which I had already been inside my box. I went to the bathroom and took a cool bath.

When I finished bathing I went to the table where there was full of food I enjoyed eating my delicious breakfast. I took my school bag and walk majestically to the school fast as leg took me.

When I reached the school gate I only heard the birds were singing their usual song that made my heart good. When I opened the school gate I was afraid because there was no any sound that I can hear except the birds.

I went to the class and read my notes. After a moment I heard the pupils were talking with low voices which scared me.

The head teacher told the bell ringer to ring bell I was confused like a rat in the box. We all went to parade. The head teacher announced to us that the school will be closed with father notice he told us about the signs of Covid-19 examples. Sneezing, coughing, running nose in public. We were told how to protect ourself wash hand with, with soap, all time, we just stay at home, no seeing our friends or relatives I was very bored we have to protect ourself from Covid-19.
