

GILO GILLO

MY HOLIDAY PERMISSION

I thank Our chairman who gave us permission to visit Our families and to know them. However I am happy to know all of them. Now I want even another Holiday you to give us the Next day.

Even I have known how to herd cattle, fetch water. I have ever Read many story book like THE TRICKY HARE. I have seen my families and even I have known all of them.

The Bad thing which I have seen in that village is that girls and boys were walking at Night together speaking their own thing. And even people were using drugs such as bhang, Alcohol, cigaret, khat and many other things.

Then in our home Our home our breakfast is just only tea after that we won't eat anything until it reach at Night. Now I have to work

hard to achieve my goals and help my family.
