## Holiday Permission

The weather was sunny. On that Saturday I was very happy because it was my first day to visit my family. That day our parents started arriving at 12 o'clock.

Our mothers who worked at obbitu cooked food. He also assisted them to do some work. When I saw my siblings together with my mother I was very happy to see them. When lunch was ready I served my siblings. We enjoyed our lunch together happily.

On finishing our lunch we washed the ~~sit~~ utensils. After that, our chairman advised all of us. He advised us well. He also tells us that some people were bad so we can avoid them.

We went home on foot because our home is not far. On reaching home I bathed. Our bathroom is not like of obbitu. Then I prepared tea for my mother and siblings. Then we drank it. It was very sweet tea that I enjoyed most.

Then the night falls. We slept on one bedroom. I thank you for buying us a bedroom. In the morning

ming we just take tea as our breakfast. There was no breakfast like obbitu.

I also want to tell you that our house was built by but not well completed. We need the floor of the house please. That is the bad thing that I have not enjoyed most. When we cooked food at our home we cooked outside please build for us a kitchen.

I also traveled to Moyale because I went to see my grandmother and my family. The town was also big. They are many people who were doing there business. The truth is that I have not seen bad people at Moyale because I have not move up & down the town.

~~At~~ At Moyale there was breakfast, lunch and supper, but not at usual time as we do at obbitu. For me ~~at~~ home and obbitu there was some difference. Always your home is the best.

On 20<sup>th</sup> April we went obbitu. We eat our lunch at obbitu. Truly I enjoyed to be with my relatives. They also bought for me shoes and clothes.
