

HOLIDAY PERMISSION

ISMAIL SHUKHU

I thank all staff office for giving me a chance to visit my families. When I arrived there are many people especially my family wondering who I am. For that two weeks that you gave me I know many things which I did not know before.

I am happy because I know many of my relatives. Sometime I help my mother to fetch water from dam and sweeping the house. However the food I ate was not balanced diet and the bed was not enough. I visited my grand mother to tell me stories in the evening. It was rare to bathe. Sometimes I felt boring there no children to play with.

There was no television to watch. In the morning I woke up and do my communal work. In the evening fetch water. There I did not know any person except my mother. Our house is not big as house at obbitu.

Every where I went I saw many children on holiday. And many were taking drugs such

as bhong, Mirca cigarette and some wore riding motorbiker. I did not take any of their moral values. I was very quite and silent. Some of them want to follow them. But I remember instruction given by our chairman.

The holiday was two weeks but for me was very long holiday. But when the sun rise and set I should know some children. I was busy at helping my mother. She was happy. But still the hour of the day pass as any one could say Jack Robinson. The day left soon we will go back.

I was as happy as lark to go back to abbit. That evening I was washing my clothes and ready to go back. Many of our relatives come to say bye to me. The next morning I got back to abbit. That was my memorable day.
