

## HOLIDAY PERMISSION

It was on Saturday The sun was shining. Then our parents arrive one after the other. When I saw my grandmother I was overcome by electrical excitement.

Then our chairman started giving a speech. He told our parents that there is no something like f. & m and early marriage.

After all our cooks brought food for us we ate a delicious lunch with our parents. It was 2 p.m we went home. My grandmother and I we went on foot to Makutano and it was about 6 km. When I reach there I was very tired. It was 4 o'clock in evening.

When it reach time for supper My grandmother gave me a little food and also gave me a tea which was bitter and not sweet. My grandmother told me to sleep on an

Animal skin.

I didn't sleep well that night and I want you to buy for my grandmother a mattress and build for her house.

Even there was no water in our places. I have not drank clean water. I helped my grandmother to fetch water and cook food and many others such as to sweep the house and to wash cloth also ~~also~~ wash utensils.

Also I want you to build a toilet and bathroom for my grandmother. The thing I enjoy most is to see my relatives.
