

~~17/7~~  
7/7/2020Covid-19 holiday

It was one bright morning when i woke up with a start. Everything was well. I took my belonging and rush to school. I took my bag and held it tenderly in my left hand. My main objective was to do well in order to surpass all expectations.

I entered the main school gate. What i saw made my pacific blue eyes to pop out of its sockets. The comfy chairs were arranged in apple-pie order.

All over sudden we heard ringing of bell. We rushed to the white tent. Then the headteacher started his strange news that there is pandemic disease which is corona virus.

There are many sign and symptoms for example: shortness in breathing, fever and hotness in temperature. You can transmit through shaking hands, kissing and hugging.

You can avoid it with washing hand with clean running water and wearing of masks.

The president said that there was no school. The badnews beat my heart tremediously. Myriads and myriads of question criss-cross in my mind.

We can hear the news in television and radio. We can read at our home through television and computer. In obbitu we have handwashing facility near the main gate, children houses and latrines. We wash our hand with soap and running water every time. Father pino protect yourself from Corona virus.
